

Who Will Care for Your Pet When You No Longer Can?

The Happy Tails Program provides a lifelong safety net for your beloved pets through the Humane Society of North Central Florida.

Peace of Mind for Michele and Pilot

"As part of my estate planning, I wanted to make sure my dog, Pilot, would always be cared for. The Happy Tails program was the perfect fit. After years of fostering with HSNCF and seeing how thoughtfully they place animals in loving homes, I feel confident knowing Pilot will be cared for throughout his life, no matter what happens to me."

— Michele, Happy Tails Participant

How Happy Tails Works

Complete a pet profile describing your pet's personality, routines, medical history, and favorite things.

Include the Humane Society of North Central Florida in your estate or enrollment plan.

If you pass away or become unable to care for your pet, HSNCF will step in immediately.

Your pet will receive compassionate care, evaluation, and placement into a loving home.

Our goal with this program is to **honor the bond you share with your pet** by finding the best next chapter for them.

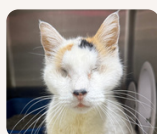

A Real Story: Five Cats & One Plan

After the unexpected passing of one of their clients, an estate attorney was faced with an urgent situation: five cats suddenly had no one to care for them.

Fortunately, their owner enrolled in the Humane Society of North Central Florida's Happy Tails Program. Because clear arrangements were already in place, the attorney was able to immediately transfer the cats into HSNCF's care.

The cats received medical evaluations, were placed in loving foster homes, and soon found new families of their own.

Because this owner planned ahead, five cats never had to face uncertainty.
